IN THE HIGH COURT OF JUDICATURE AT BOMBAY.
ORDINARY ORIGINAL CIVIL JURISDICTION.

In the MATTER of the INDIAN COMPANIES' ACT X. of 1866, and in the MATTER of the NEW ALEXANDRA SPINNING and WEAVING COMPANY, LIMITED, IN LIQUIDATION.

HENRY RANDALL CORMACK, NOWROJEE FURDOONJEE and MICHAEL ROZARIO DE QUADROS ..... Official Liquidators.

UPON reading the affidavit of the above named NOWROJEE FURDOONJEE, sworn on the 11th instant, with the exhibits thereto annexed, and upon hearing Messrs. ARDASIR and HORMUSJEE Attorneys for the said Official Liquidators, I do order that Ardasir Byramjee Kapadia and Merwanjee Framjee, the Liquidators of the Alexandra Spinning and Weaving Company, Limited, in Liquidation, do appear before me in Chambers on the 22nd instant, to show cause, if any, why the sum of Rupees three lacs set apart to meet the claims mentioned in the said affidavit should not be distributed *pro rata* among the Creditors of the said New Alexandra Spinning and Weaving Company, including the unsatisfied Creditors of the said Alexandra Spinning and Weaving Company, Limited. And I do further order that any Creditor of either of the said Companies be at liberty to attend on the return of this summons and be heard against or in support of the same, but at his own costs. And I do further order that the said Official Liquidators or their Attorneys do furnish copy of the said affidavit and exhibits to any Creditor of either of the said Companies requiring the same on payment of the regulated charges therefore. And I do also order that the Liquidators of the said Alexandra Spinning and Weaving Company and any Creditor thereof opposing the said order do file any affidavit which they or he may desire to use and do serve copy thereof upon the said Official Liquidators of the said New Alexandra Spinning and Weaving Company or their Attorneys on or before 1 p.m. of the 19th inst. And I do lastly order that this summons be advertised twice in the following Newspapers (that is to say, the *Bombay Government Gazette*, the *Bombay Gazette*, the *Times of India*, the *Jame-Jamshed*, the *Bombay Samachar*, and the *Rast Goftar*.—Dated this 12th day of March 1880.

THE HYDERABAD (DECCAN) SPINNING AND WEAVING COMPANY, LIMITED.

NOTICE is hereby given, that an EXTRAORDINARY GENERAL MEETING of the SHAREHOLDERS of the above Company will be held at the Registered Office of the Company, No. 5, Hornby Row, in the Fort of Bombay, on TUESDAY, the 23rd day of March, 1880, at 3.30 p.m. for confirming the following special resolutions adopted in the Extraordinary General Meeting of Shareholders held on Tuesday, the 2nd day of March, 1880:—

1. That the Articles of Association be altered in the manner following:—

(a) The existing Article No. 97 be and is hereby cancelled, and the following Articles substituted in its place:

67. The General Management of the business of the Company, both at the Registered Office in Bombay and at Hyderabad, but subject to the Control and Supervision of the Directors, shall be in the Secretary, Treasurer and Agent.

Mr. J. Seymour Keay shall be the Secretary, Treasurer, and Agent of the Company, and his remuneration for the management of the business of the Company shall be 2½ per cent, upon all monies received for yarn and cloth and other articles manufactured and sold by the Company.

Mr. J. Seymour Keay may carry on the said management in either of the above-named places in which he may not be present by means of a duly constituted attorney (whose remuneration shall be paid by him and for whose acts and doings he shall be responsible), provided always that unless in case of serious sickness the said J. Seymour Keay shall not absent himself from both these places at the same time for more than eight months during the period of any two years except with the special permission of the Directors, and in the case of such absence he shall carry on the said management at both of these places by attorney or attorneys.

The salary or salaries of the Mill hands, overlookers, clerks, managers, and expenses of the Office Establishment at Bombay and Hyderabad, shall be paid by the Company, but that the expenses of the whole establishment and management at Bombay is to be limited to Rs. 250 per month, unless any further sum be specially sanctioned by the Directors.

The Board in addition to the powers and authorities by the said Act or by these Presents, expressly conferred upon them, may exercise all such powers, give all such consents, and do all such arrangements, and generally do all such acts and things as are or shall be by the said Act and these Presents directed or authorized to be exercised, given, made, or done by the Company, and are not thereby expressly directed to be exercised, given, made, or done by the Company in General Meeting, but subject, nevertheless, to the provisions of the said Act and of these Presents, and subject also to such (if any) regulations as are from time to time made by the Company in General Meeting, but no regulation made by the Company in General Meeting shall invalidate any prior act of the Board which would have been valid if the regulation had not been made.

(b). The existing Article No. 100 be and is hereby cancelled, and the following Article be substituted in its place:—

100. The Secretary, Treasurer and Agent shall be disqualified if he becomes incapable to act as such Secretary, Treasurer and Agent, or if he becomes mentally diseased, or insolvent, or compromises with his creditors, or conveys his estate to trustees for the benefit of his creditors, the Company then in General Meeting may nominate such person or persons and on such terms as they may think fit to be such Secretary, Treasurer and Agent.

(c) The existing Article No. 101 be and is hereby cancelled, and the following Article be substituted in its place:—

101. The Secretary, Treasurer and Agent shall have power, subject to the sanction and approval of the Directors, to appoint and employ in or for the purposes of the transactions and management of the affairs and business of the Company or otherwise for the purposes thereof, and from time to time to remove or suspend such Managers, Bankers, Engineers, Clerks, Brokers, Accountants and other Officers with such powers and duties as he shall think proper.

Notwithstanding this clause, the Directors shall have full powers and authority at any time, or from time to time, to remove or suspend any of the employés of the Company except the Secretary, Treasurer, and Agent, as aforesaid, and to appoint in his or their place such other persons as they may think proper, and also to appoint such Managers, Engineers, Bankers, Accountants, Clerks, and overlookers, as they may think proper.

The Secretary, Treasurer, and Agent is at liberty for the purposes of the Company to lend money from time to time to the Company in current account or as fixed loans at such rates of interest as may be agreed upon between him and the Directors.

2. That Articles 71 of the Articles of Association be altered as follows:—

To the words "Three Months" be expunged from that Article and the words "Fifteen Days" be substituted in their place.

3. That Article 81 of the Articles of Association be altered as follows:—

That the words "Three Months" be exsunged from that Article, and the words "Fifteen Days" be substituted in their place.

By Order of the Directors,
DINSHAW MANOCKJEE PETIT.
Chairman of the Board.

Bombay, 8th March 1880.

NEW ADVERTISEMENTS.

WILSON'S
GREAT WORLD CIRCUS.

SUCCESS! SUCCESS!! SUCCESS!!!

OUR great success is only attained because a discriminating Public are satisfied that our entertainment is stamped with genuine merit and of a rational recreative and popular character. When assembled in a gigantic combination you find such names as

MISS VICTORIA COOKE,
MISS NANNETTE LOCKHART,
ZAZEL LILIA DARE,
LITTLE ADELE, "THE SYLPH OF THE ARENA"
THE GREAT GEORGE LOCKHART,
THE GREAT SAM. LOCKHART,
THE GREAT NATHAN JACKLEY,
THE GREAT JOSEPH WALHALLA,
THE GREAT STEWART WALHALLA,
THE WONDERFUL YOUNG GARNET,
WITH THE EMPEROR OF HORSE EDUCATORS,

and
A magnificent stud of Horses who can be astonished at our supreme success. The names are a guarantee that all that is most excellent in the profession has been secured for

WILSON'S CIRCUS.

SEEING IS BELIEVING.

And the moral of that is, Go and See. Our season will be only half as long this year as on the two former occasions; as our engagements ahead for the whole of the year 1880 are imperative, and much as we desire to prolong our season in Bombay, our stay must be positively limited. Therefore ye who are wise,

"Gather ye roses while ye may,"

For the roses are strewn for your gathering every evening at Wilson's Circus, and the buds that are taken home in the minds of well-pleased and satisfied audiences, blossom into full bloom roses of pleasure and content, and bear fruit in the sending every body who cares to share in the enjoyment. The old, the young, the rich, the poor, forget their troubles, and find an Elysium of delight in witnessing this the most meritorious entertainment of its class ever offered to an Indian Public.

Reserved Chairs and Private Boxes can be secured at the Ticket Office from 10, a.m. to 5, p.m. daily.

Zenana Boxes will be fitted up for any number required on application at the Circus.

NANSEE KHYRAZ & CO.,
13. MEADOW STREET. BOMBAY. 13.

CIVIL, MILITARY, AND NAVAL TAILORS, HOSIERS, HATTERS AND GENERAL WAREHOUSEMEN, 13, MEADOW STREET, 13.

WE very respectfully beg to inform our numerous friends and constituents both in Bombay and the Mofussil, that we have JUST RECEIVED a NEW and IMPORTANT ADDITION to our already EXTENSIVE STOCK, suitable for the present season.

This stock has been purchased to our order by our agents in England, and great care and taste has been displayed in the selections, and we confidently assert the goods will be found second to none, and our prices lower than that of any other House in India.

OUR NEW STOCK

COMMERCIAL INTELLIGENCE.

MONDAY EVENING, MARCH 15, 1880.

THE only alteration to notice in Reuter's closing telegram of Saturday is a decline of 6d. per quarter in Calcutta descriptions of Linseed and Rapeseed to arrive.

The Bank of Bombay Return for the week ending on Saturday shows] the following changes :—

Public Deposits at H. O.	Inc.	Rs.	2,63,059
Do. Branches	Inc.	,,	69,273
Other Deposits	Dec.	,,	9,01,540
Government Securities	Dec.	,,	86,216
Loans	Inc.	,,	5,70,267
Bills Discounted	Inc.	,,	7,19,113
Cash with Correspondents	Dec.	,,	11,134
Cash and Currency Notes	Dec.	,,	17,68,785

This week's return is almost as unexpectedly unfavourable as that of its predecessor was favourable, and an advance in the Bank's rates of interest and discount at an early date is generally looked for. The decrease in the Cash Balance by 17½ lacs is owing mainly to an increase in the trade demand of 13 lacs, neither is this to be wondered at when we consider the large arrival of Cotton in Bombay during the past week, and the comparatively very small quantity that has been sold. Stocks here are accumulating fast both of Cotton and Seeds, and the dealers are having considerable difficulty in getting advances against their Produce in the bazaar.

EXCHANGE has shown unexpected strength today as the amount of Bills offering has been but moderate. At the close there is a decidedly firmer feeling, and Banks show little disposition to buy at an advance of 1-32d. to 1 16d. per Rupee, especially Bills for forward delivery. There is no demand for Bank Bills. In Calcutta telegrams report rates firm at 1s. 7 15-16d. for demand and 1s. 8¼d. for 4 months' sight Bank Bills. Our closing quotations are as follows, viz. :—

Bank Bills, on demand	1s. 8¼.	per Rupee	
Do. 3 months' sight.	1s. 8¼d.	,,	
Credits 3	,, ,,	1s. 8⅛ to 9-32d.	,,
Documents 3	,, ,,	1s. 8 5-16d.	,,
Francs 3	,, ,,	2-13½ to 2-14	,,

On Calcutta demand drafts are at 1-16 per cent premium, and 60 days' sight Bills at ¼ per cent discount.

GOVERNMENT PAPER shows some weakness both here and in Calcutta. Here our rate for Fours is Rs. 94½ to Rs. 94¾ and for Fours-and-a-half Rs. 102. In Calcutta the rates are Rs. 94⅝ and Rs. 101½ respectively.

SHARES.—The market has been quiet but steady throughout the day and no changes of any importance have been reported.

COTTON.—The market opened very quietly and with little demand from exporters, dealers were willing to accept a further decline of Re. 1 to Rs. 2 per candy for most ready descriptions. As the day wore on, however, buyers showed more disposition to operate, and a fair business has been done, at the close at about Saturday's rates. The arrivals are somewhat smaller being only 9,592 bales for the two days. We quote :—

Good M. G. Broach, Ready	Rs.	248	per candy	F. P
,, ,, April delivery	,,	247	,,	,,
,, Dholleras, Ready	,,	239	,,	,,
,, ,, April delivery	,,	237	,,	,,
,, Oomrawuttee, Ready	,,	240	,,	,,

SEEDS.—The market for Linseed is rather steadier at Rs. 6-7 per cwt. Rapeseed is unchanged and nothing doing. Gingelly is steady.

FREIGHTS keep very firm. The nominal quotation for immediate shipment for Liverpool is 45s. per ton via Canal, and for April Loading 40s. per ton. For Havre March-April shipment by Steamer, is still 40s. per ton, and for Marseilles and Genoa and Trieste and Venice 45s. per ton. Freight paid here at par. For Sailing Vessels there is not much enquiry, the rate for Wooden Ships to Liverpool is still 27s. 6d. and for Iron 32s. 6d. per ton.

PIECE GOODS.—Although the market keeps very quiet there has been slightly more enquiry to-day than during last week. The business doing, however, continues on the smallest possible scale.

COALS are unchanged.

THE readers of the *Gazette* will remember that we published on Wednesday last, a valuable communication embodying the proposals of the Indian Army Commission. We note that the purport of our article was telegraphed to the *Englishman* at Calcutta, which had not the grace to acknowledge the source from whence it came; and other papers on that side of India have been copying the summary and crediting the *Englishman* as being the first journal to make public the report of the Army Commission which has been anxiously looked for, at least by all military men.

WHILE we are on the subject of complaints, there is another that we would call attention to. The *Civil and Military Gazette* of Lahore, a journal from which we certainly expected a higher morality not only cribs matter from our leading columns without acknowledgment, but has coolly appropriated "Our Political Orphan," who is the peculiar property of the *Bombay Gazette*, and does not acknowledge the paternity of our Lahore contemporary.

A SALUTE of 13 guns was fired yesterday on board the French man-of-war Bisson, on the occasion of a visit by H. E. Rear-Admiral Gore-Jones to that ship.

THE Hon'ble Mr. Ashburner, having taken his seat as Governor, and the Hon'ble Mr. Kemball, as fourth member of Council, two salutes were fired from the saluting battery at sunrise yesterday morning, one of 17 and another 15.

THE Government of India has assumed direct control, through the Director of State Railways, of the Kandahar Railway, owing to the departure of Sir Richard Temple.

THE way in which deficient postage is calculated on overland letters to India, as a Calcutta paper remarks, is curious. The amount short in English currency is doubled, and converted into Indian money at the rate of one anna for one penny—a method very expeditious, no doubt, but not exactly complimentary to the poor rupee. Of course, with the varying rate of exchange, it would be too much to expect the P. O. officials to calculate the exact value, at the time, of a few pence, so this rough and ready rate of exchange is perhaps excusable, but when it is a case of overweight, and the deficiency is one of a whole postage-rate, there is a very simple way of calculating the amount due in Indian money, double the Indian rate; but as there are always more pence in the English, than annas in the Indian rate, it is to the advantage of the P. O. to double the former, if not strictly fair to the addressee. Owing therefore to the ignorance, for which they are scarcely to blame, of English correspondents, the Indian P. O. receipts will be increased for a short time by a large crop of fines paid by the Indian recipients of letters.

IT appears from the China papers to hand by the last mail that there are modifying circumstances which take Ch'ung How's China-Russian treaty out of the list of triumphs, and may afford some explanation of his disgrace. Russia has agreed to give up part of the valley of the Ili, but she has agreed to give up only part. It is uncertain whether Kuldja itself is to be given up, and the valley of the Tekkes and the passes into the district of Kashgar are to be retained. It is true that there are other and easier routes into Eastern Turkestan, but they lead from Khokand, while the lower valley of the Ili contains the fortified posts of Vierny and Kopal in ready communication with Sergiopol and Semipalatinsk. Then again the Ambassador has agreed on behalf of his Government to pay for the rendition of portions of the territory some five millions of roubles, about seven hundred thousand pounds sterling, and it becomes a question whether the restoration may not be purchased at too dear a price.

OFFICIAL reports from the seat of war in Achin to the 25th January announce the submission of many more chiefs and headmen. Mr. Pruys Vander Hoeven and General Vander Heyden, the Governor of Achin, have been appointed Government Commissioners for the organisation of the province of Achin and its dependencies.

GREAT success has attended the experiment of planting mahogany in the Government gardens at Rangoon. Colonel Hawkes, the Superintendent, says of 112 plants raised from seed sown in September, 1878, not one has failed. Some that were measured when exactly a year old were from 6 to 8 feet in height with a girth of over three inches, a rate of growth altogether unprecedented even in the case of indigenous trees. In addition to its rapid grow the mahogany tree appears to be very hardy, thriving in the poorest soil and promising to bear with impunity the extremes of heat and moisture characteristic of the Burmese climate.

THE sudden and unexpected dismissal of Babu Nishikanto Chatterji from the post of Professor of Indo-aryan languages in the University of St. Petersburg, has quite taken the *Mirror* by surprise. The idea forces itself on our contemporary's mind that it is quite possible that this Bengali gentleman has been put out of the way, merely because he might be seeing more than would be safe or desirable regarding the plans which Russia is probably maturing for disturbing the peace of the British Empire in India. It will, perhaps, be remembered that, while prosecuting his studies at he University of Leipsic Babu Chatterji was offered the newly-created chair at St. Petersburg, and that he joined the appointment before he could complete his course for the doctoral degree. The action of the Russian Government in the absence of information, seems *prima facie* to be harsh and arbitrary. The *Mirror* suggests that "the Government of India might do many worse things than helping him to complete his studies at Leipsic, and utilising his talents in the public service of his native country, to which his local knowledge of Russia would be simply invaluable."

ONE of the Rangoon papers states that Upper Burmah is threatened with famine; but a correspondent of a Calcutta paper writes that the harvest there has been very good and hardly any shipments of paddy and rice are being made from the British side, so that this would look as if there was not much chance of scarcity just at present, although doubtless cultivation may have decreased owing to the lottery attractions of the capital and the general state of uncertainty which has prevailed in the country since the late king's death. In British Burma the harvest every where has been abundant, and prices of grain are a shade lower than they were a fortnight ago. Unhusked rice is selling at about Rs. 100 the hundred bushels, and on the railway line prices have fallen to something like Rs. 85 or Rs. 90. The railway is doing a brisk carrying trade, and receipts are fully 60 per cent. over what they were this time last year, averaging between Rs. 35,000 and Rs. 40,000 per week. This should give a good return on outlay, and encourage the laying down of the line to the isolated Tonghoo frontier, where there would be no steamers to compete with the railway, as is the case with the Prome line.

THE trade and navigation returns for British India for January last, show that the imports in that month amounted to Rs. 5,20,65,796, as compared to Rs. 4,39,49,666 and Rs. 5,44,47,905 in the corresponding months, respectively, of 1879 and 1878, while the exports were Rs. 7,28,09,620, as compared to Rs. 6,21,26,459 and Rs. 6,48,80,865. For the ten months, 1st April 1879 to 31st January, 1880, the amount of imports was Rs. 43,52,38,140, as compared to Rs. 37,20,05,599 and Rs. 49,87,77,107 for the corresponding periods of 1878-79 and 1877-78 respectively; the exports being Rs. 53,41,82,838, as compared to Rs. 50,88,99,623 and Rs. 54,23,43,464.

IT is stated from Rangoon that the Chief Commissioner and the head of the Burmese Embassy exchanged visits of courtesy on the 1st instant at Thayetmyo. No reference to the political situation was made by either side.

NOTHING fresh has transpired, the *Statesman's* Rangoon correspondent writes, regarding the Burma commissariat frauds, and Colonel Wheldon is still prosecuting the military enquiry. The prisoners, or accused, or whatever they are called, are treated with greater leniency than they were at first, and are allowed now to communicate with their friends.

AN important case, in which four persons were alleged to be implicated in the murder of Gosain Shivlal in the Kheda zilla, has just terminated before the Sessions Judge of Ahmedabad in the acquittal of the accused.

REGARDING the reported expected submission of Mir Bacha and Mahomed Jan to the consuls of the Mustaufi Hubibalah, the *Civil and Military Gazette* writes:—"Their course is precisely that which would be the most natural for treachery to take. To carry on an insidious organisation against us, there could be no better cloak than an apparent willingness to come to terms, and to amuse the Mustaufi, and through him the British officials, with the idea that the insurgent combination was being broken up, while in reality plans were being matured for an outbreak of hostilities which should take us by surprise, is a completely Afghan notion of astute diplomacy. It may of course be all genuine. The prospect of an attack on the British position may be so positively uninviting as to render it desirable even for Mahomed Jan to shirk it and its consequences; but we have had too much experience of Afghan duplicity to do otherwise than stand upon our guard in accepting overtures so very doubtful as these of Mir Bacha and Mahomed Jan."

THE editor of the *Bombay Guardian* is very skilful in deciding upon difficult cases. A week or two ago he defined the exact degree of culpability attaching to the individual who takes a restless day into a place of worship during sermon. Now he undertakes the still more difficult task of deciding what an army chaplain should do, who, while at mess, hears the Generals and other swells about him planning "atrocities." The chaplain is afraid that something disagreeable will happen to him whatever he may do. If he says grace and consorts with "moral murderers and adulterers" he incurs damnation, and if he refuses he will have to go to the workhouse. What then is he to do? The editor of the *Bombay Guardian* thus helps him in his difficulty:—"That there have been atrocities committed by Afghans in the war now waged in Afghanistan, is not to be questioned; that atrocities have not been committed by the invading force, we cannot assert; in fact, war itself is an atrocity, and the apparatus by means of which it is carried on, is designed to mutilate and torture and kill, and create widows and orphans, and substitute famine and pestilence for plenty and for health. Most people, even most Christians, hesitate, however, to affirm that war is never justifiable; American Christians went forward by myriads to engage in the war with the revolted South. There are Christian officers and men serving in Her Majesty's force in Afghanistan, and it is possible that some of these do not believe that England was called to engage in this war, yet they probably consider that the responsibility does not rest with them, but with those whose orders that have engaged to obey. At the time the chaplain whose letter we have quoted received his appointment, he must have known that he would be called to serve those who fight the battles waged by the State. But we do not see that it is an indispensable part of his duty, when he dines with high officials, to put a seal upon his lips as regards his convictions of what is right. Let him speak out his mind and abide the consequences." We should like to see the expression on the countenances of the Generals when the chaplain speaks out his mind upon their designs.

THE IRISH DISTRESS FUND.

We beg to acknowledge receipt of Rs. 20 towards this fund from Mr. Edward T. Moore, of the Dhond and Manmad Railway.

WE are glad to notice that subscriptions to the Irish Relief Fund, Bombay, are coming in from many distant parts of India. Colonel Barton, Political Agent, Kathiawar, has sent Rs. 400 on behalf of the Gondal State. The Huzar Deputy Collector of Ahmedabad, Mr. J. F. Fernandes, has sent subscriptions collected in his district to the large amount of Rs. 627, from Broach Mr. H. H. Hynes, has sent Rs. 559, which has been generously subscribed from Broach.

Even in so distant a city as Delhi the claims of the distressed in Ireland have not been forgotten, and Mr. E. W. Parker has kindly and thoughtfully sent Rs. 128. From Kaira Mr. G. F. Sheppard, C. S., has kindly sent Rs. 110.

GRIMAULT & Co.'s GUARANA owes its curative virtues to the great quantity of caffein which it contains. Dr Wilks, of the Guy's Hospital, declares in the *British Medical Journal* that the *Guarana* acts "like a charm."

Guarana powders are a certain remedy for the *sick headache*.—*The Lancet*, Aug. 31, 1872.

THE PRINCE'S DOCK.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—A few weeks since the Prince's Dock was opened The May Frere led the way, followed by ships and steamers. His Excellency the Governor was on the spot, as well as the Trustees of the port, the port officers, Dockyard authorities, and an immense throng of Europeans and natives, as well as the ladies, who graced the occasion, as was fitting. Nothing was left out to ensure the success of the *tamasha*. True, there was not much enthusiasm. But Bombay folk are not given to being demonstrative. A sumptuous lunch was spread, and there was no lack of good liquor or good speeches. Everything went off beautifully. The throng dispersed and left the dock alone in its glory. And it has been pretty much alone in its glory from that day to this, and is likely to remain so, until the Powers that be do what should have been done in the first place—*i. e.*, construct a light line of railway along the foreshore as a feeder to the dock. It seems to me that this light line of railway should have been constructed and opened simultaneously with the opening of the dock. So that when ships and steamers went into dock on the opening day, produce should have been carried to the dock along the foreshore line to load the ships. It was a pretty sight to see the lifts hard at work hoisting and lowering pretty flags. But it would have been more to the purpose if the lifts could have been put to the practical use of hoisting from the pier and lowering into the ship's or steamer's hold bales of cotton, bags of seeds, or other produce, just as I saw one lift practically used the other day loading the one steamer in dock. The only other work going on the day I visited the dock was the hoisting out bar iron from the hold of the good ship Waterloo, and the loading three native craft with bar iron. I see notices almost every day in the papers that the dock gates have been opened to let in or out native craft. You may build a line of railway and construct railway carriages, omitting to build an engine to draw the railway carriages, or you may build a carriage and not have horses to draw it. Your railway line will be a fine piece of engineering skill, and your carriage will be a credit perhaps to the carriage builder. But for all practical purposes either the railway line or carriage might as well never have been constructed. So you may construct a dock, but without feeders it is of no practical use. I shall be told that the G. I. P. railway is a feeder to the Prince's Dock. Very true; but you might just as well try to draw a heavy train of railway carriages by a donkey engine, or a street carriage by a billy goat, as to run the Prince's Dock with the G. I. P. feeder. Does any one suppose that the great cotton trade of this port is to be diverted to the Prince's Dock unless a light line of railway is constructed along the foreshore from Colaba. Never: it will be cheaper to lighter the cotton alongside ships and steamers in the harbour. A foreshore line to the docks would do away with lightering. The line would pay Government good interest on the capital invested and enhance the value of the foreshore properties. It would make the dock pay. Besides, it will cheapen the cost of loading ships or steamers. It will be a pity if the Prince's Dock continues to be the white elephant it is at present, for no reason but Government's delaying the work which, in my humble opinion, should have been finished when the dock was completed.

March 5. DESIDERATUM.

THE ENGINEERS' PARADISE.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—A writer in the *Times of India* (weekly edition) in an article under the heading of the "Engineers' Paradise" is severe upon the organisation of the P. W. and the Survey Departments. The article contains some pungent truths, but many fallacies. A glaring defect no doubt in the organisation of the P. W. Department is the plethora of commissioned and gazetted officers holding appointments the duties of which could be equally well performed by a much less highly salaried class of public servants. I have already pointed out, under another signature in your paper, that the time has arrived when subordinates in the highest grades must be brought much more to the front than is heretofore been done, and every inducement and facility afforded them of acquiring, in addition to sound practical acquaintance with their profession, such mathematical and theoretical knowledge as will qualify them to discharge on all occasions the duties of assistant engineers. The pay of a sub-engineer in the first grade is less than that of a Royal Engineer officer on joining the department; the latter having nearly the whole of the practical part of his profession to learn, ignorant of the native languages, the ways of controlling and managing natives, and of the resources of the country. For one year at least he is an expensive, and a very expensive apprentice, for he costs the country over Rs. 400 per mensem. The writer of the article under notice says, "To insure that a road or a single collectorate should be duly metalled, the culverts kept free from silt, and the masonry duly pointed, we generally are 'executive engineers,' often a colonel of Royal Engineers, who kindly undertakes these arduous and responsible duties for Rs. 2,000 a month. It would, of course, be unreasonable to expect as much of one who has served so many years, and enjoys such good pay to attend directly to such matters himself; so to assist him he has two assistant engineers and four or six (*sic*) sub-engineers, any one amongst whom is perfectly qualified as far as attainments go to perform all the duties of *executive engineers*. Nevertheless it is considered necessary to have a still higher officer a 'Superintending Engineer,' who is himself kept in good order by the Secretary to Government in the Department" and the writer proceeds to say "that all this work (executive engineer's work) except the endless work is done at home by a road surveyor, on 1250 a year." And, I may add, that I know as executive engineer in Bengal who has frequently said that even the employment of supervisors on road work was a waste of money, because he could set all his road work and repairs to buildings done by ordinary road munshies on Rs. 30 and Rs. 50 a month! When we have said this we believe we have touched the bottom and nothing more can be said regarding lessening the cost of supervision. But let us see what the duties of an executive engineer are other than those of seeing the metal put down on his roads and the silt removed from the culverts. If he is in charge of a large military cantonment he will find his hands sufficiently full with correspondence. However much he may object to sitting to them, thus making it very unpleasant to walk or drive past such places, owing to the smoke and smell; and they are very difficult to avoid seeing they occur frequently on both sides of the public drives. The person who issued such order is evidently unaware that these very leaves form nature's own manure for the beautiful trees which cover these hills, and make them so lovely and health-giving. Surely every thing is being done to spoil Mahableshwur. On the night of the 8th one of the malleos (Sir Jamsetjee Jeejeebhoy's), stupidly endeavouring to carry out these absurd instructions about burning the so-called rubbish, collected a heap, and added to it all the old chopper grass and leaves which have recently been cleared off his master's house; he set fire to it, raising such a blaze as alarmed the whole station, causing the firebells to be rung, and the fire engine as well as the whole bazaar and a number of ladies and gentlemen to turn out. So great was the blaze that the authorities deemed it advisable to place a watch over the fire all night, after freely using the fire engine to put out the flames.

VESSELS ARRIVED.—The following vessels arrived on Sunday and yesterday:—Assam (s.), Melbourne; Assiria (s.), from Genoa; Centurion, London.

THE band of H. M.'s Marine Battalion will play at the Gymkhana this evening.

PRINCE'S DOCK.—The S. S. G. W. Ward entered the dock on Saturday last and has been berthed alongside the south wharf.

GYMKHANA SKY RACES.—The Gymkhana Sky Race lottery settlement takes place in the pavilion this afternoon at 6 o'clock.

AN OLD OFFENDER.—Cooloo Doogdoo was yesterday convicted by Mr. W. Webb of stealing a *saree*, value Rs. 3, belonging to Bhimmee, woman, and was sentenced to six months' rigorous imprisonment.

DROWNED.—A Coroner's inquest was held on Sunday last at Byculla, on the body of an old Hindu woman, named Ruckmee, who committed suicide by drowning herself in Dick Tank. A verdict to that effect was recorded.

POPULAR LECTURE.—The sixth public lecture in connection with the Gujarati Dnyan Prasark Mandli will be delivered at the Framjee Cowasjee Institute to-day at 6 p.m. by Dr. Eduljee Nusserwanjee, G.G.M.C. on "Modern Surgery."

CRIMINAL BREACH OF TRUST.—A Hindoo tailor, named Pandoo Bapoo, was yesterday sentenced by Mr. W. Webb to three months' rigorous imprisonment on being convicted on three separate charges, of criminal breach of trust in respect of sundry articles of clothing.

A DISHONEST SERVANT.—Antone Pedro, a domestic servant in the employ of Mr. M. Byrnes, was yesterday convicted by Mr. Nana Morojee of stealing a gold ring set with precious stones, value Rs. 105, the property of Mrs. Byrnes. He was sentenced to receive ten stripes with a cat-o'-nine-tails.

INDO-BRITISH INSTITUTION.—The annual meeting of the Indo-British Institution will be held at half-past five o'clock this afternoon in the Boys' School. There will be also a distribution of prizes. The acting Governor of Bombay (the Hon'ble Mr. Ashburner) will preside.

THEFT.—James Wright, a West Indian, was yesterday convicted by Mr. Nana Morojee of stealing Rs. 12-4 in cash, half a sovereign, and a two shilling piece, the property of three European seamen, named Cope, Pepper and Laing. He was sentenced to two months' riogrous imprisonment.

THE ROYAL ALFRED SAILORS' HOME.—The annual general meeting in connection with this Home has been unavoidably postponed from Wednesday, the 17th inst. to Tuesday the 23rd March His Excellency Admiral Gore-Jones will preside on the occasion.

OVER-CROWDING OF RAILWAY CARRIAGES.—A correspondent complins that the daily local train which leaves Bandora (B. B. and C. I. R.) at 9·5 a. m., Bombay time, usually carries so many passengers that every third class compartment is overcrowded, notwithstanding the rules to the contrary. He suggests that a few more carriages shou'd be attached to the train.

FATAL ACCIDENT AT SEA.—Captain Hutchinson, of the S. S. Britannia, reported on his arrival in harbour to the police authorities, that on the passage from Kurrachee a deck passenger, named Soomana, aged 60 years, who was blind of one eye, accidentally fell down the main hatchway and died about two hours afterwards, from internal injuries thereby sustained. The deceased was buried at sea.

THEFT BY BOATMEN.—Kallia Bhicku, the tindal of a cargo boat, and two other classers, were yesterday convicted by Mr. Nana Morojee of stealing a quantity of myrabollams, value Rs. 12-8, the property of Gocouldass Jethanji, Prisoner No. 1 was convicted to six months' rigorous imprisonment, and the other two were sentenced to four months' rigorous imprisonment each.

A CRICKET MATCH: PARSEES *v.* HINDUS.—In the return match between these two teams, the Parsees turned the tables with a vengeance upon the Hindus, who, it will be remembered, won an exciting match by eight runs a few days ago, when the teams were very nearly the same. The Parsees on Saturday won the toss and sent the Hindus in to bat, and they, thanks to bad fielding and want of ability to hold catches on the part of the Parsees, ran up a score of 108. Various bowling changes were tried, the most successful being Tata and Major. The former got 4 wickets for 29 and the latter for 25. The Parsees then went in and treated all the Hindu bowling with great contempt, making 173 runs before the fall of the 10th wicket. The feature of the innings was A. C. Major's score of 51, though it was not devoid of chances. With 65 runs to the bad, the Hindus went in again to the bowling of Tata and Major, and so well did these two bowl, that when stumps were drawn 8 wickets were down for 34 runs only. Had time allowed, it would most probably have been a single innings victory for the Parsees. As it was, they won by 65 runs on the first innings.

MAHABLESHWUR.—A letter from a correspondent at Mahableshwur to a Poona paper complains that unusual heat is experienced there just now, owing to a large number of fires continually seen burning in every direction, under instructions by some authority to burn all the dead leaves. The malleos keep sweeping up the heaps and setting fire to them, thus making it very unpleasant to walk or drive past such places, owing to the smoke and smell; and they are very difficult to avoid seeing they occur frequently on both sides of the public drives. The person who issued such order is evidently unaware that these very leaves form nature's own manure for the beautiful trees which cover these hills, and make them so lovely and health-giving. Surely every thing is being done to spoil Mahableshwur. On the night of the 8th one of the malleos (Sir Jamsetjee Jeejeebhoy's), stupidly endeavouring to carry out these absurd instructions about burning the so-called rubbish, collected a heap, and added to it all the old chopper grass and leaves which have recently been cleared off his master's house; he set fire to it, raising such a blaze as alarmed the whole station, causing the fire-bells to be rung, and the fire engine as well as the whole bazaar and a number of ladies and gentlemen to turn out. So great was the blaze that the authorities deemed it advisable to place a watch over the fire all night, after freely using the fire engine to put out the flames.

A COLLISION WITH THE MAIL STEAMER SUMATRA.

BAPOO VISRAM, the tindal of a prow belonging to one Ragoo Gudar, reported on Saturday evening last at 8 o'clock, that whilst the prow was coming into harbour with a cargo of 43 bales of cotton, he had occasion to anchor in the fairway, and that the mail steamer Sumatra proceeding to sea came in collision with the prow and sunk her. The tindal alleges he had a light exhibited at the time. The crew of the prow kept themselves afloat for some time on bales of cotton, and were picked up by a boat's crew from the Sumatra, who put them on board of a *cotia* which was anchored near. None of the cargo was saved from the prow.

THE EXTENSIVE NOTE ROBBERY.

ON Sunday morning a second and more diligent search was made in the premises of Hajee Ahmed Jeshwee in Mody Khana Street in respect of the lost currency notes, value Rs. 84,000, which Mr. Inspector Framjee Bicoajee was deputed to superintend. The search was attended with success. While a party were engaged in rooting up every corner of the cooking apartment in the building, the whole of the notes were found tied up in two dirty pieces of cloth, and carefully secreted between the roof and some iron sheeting over the fire-place. On examination it was discovered that the total value of the notes found were about Rs. 136 less than the amount given by the complainant as missing from his safe. He now states that he may have made a mistake while making up his account. Sir Frank Souter, the Commissioner of Police, who visited the premises while the search was being made and also after the notes had been recovered, ordered the arrest of nine of the inmates of the house. Further inquiries are being made.

THE performance at the Gaiety Theatre this evening is for the benefit of Mr. Tapping, and "The Shaughraun" will be played. There is sure to be a bumper house, Mr. Tapping being a general favourite.

THE BOMBAY ICE MANUFACTURING COMPANY.

AN extraordinary general meeting of shareholders was held at noon yesterday at the company's office, Church Lane, to receive the directors' report for the half year ending 31st December 1879 and to prescribe the time and place for holding the ordinary meetings of the company. Mr. Nanabhoy Byramjee Jeejeebhoy, chairman of the board of directors, presided; and there were also present—Messrs. A. W. Forde, Raghunath N. Khote, C. Tyabjee, J. R. Duxbury, Major trutt, Dr. Cowasjee Hormusjee, Messrs. Martin Wood, A. McLaggan, C. B. Lynch, Dosabhoy Dadabhoy, and others. The notice convening the meeting having been read,

The chairman, in addressing the meeting, said.—Gentlemen,—It gives me great pleasure to meet you here to-day and to place before you the report of your directors for the half year ended 31st December last. You are aware, gentlemen, of the keen competition your company has had to encounter lately at a most unfavourable season, and yet I am able to congratulate you on the results of the half year under review, which have been most satisfactory and are a sure and reliable index to the bright future which is before you

We are carrying to a renewal account Rs. 2,248-5-7 for deterioration of buildings and machinery, and Rs. 500 in further reduction of preliminary charges account, and yet we are able to declare a dividend of 10 per cent. per annum on the guaranteed shares as well as the second issue or B preference shares. As a promoter of the company, and as one of those who during the late periodical ice famines, from which we suffered so much and which happily now we shall never know again, I say, as one of those who worked hard to petition the Government and to ventilate the grievances of the public in this matter, I think I can justly felicitate myself upon the success which has attended our disinterested exertions to break down the monopoly in the ice trade, which has subjected us to repeated ice famines in the hottest seasons for some years together. (Hear, hear.) Gentlemen, the capital you subscribed in order to found this company was an insurance fund against ice famines, and it must be a source of great satisfaction to you to know that your famine insurance fund has been faithfully applied to the purposes for which it was raised. (Applause.) Not only are you now securely insured against ice famines, but your money has been invested in safe reproductive works which have yielded 10 per cent. for the last year and may fairly be expected to yield more in future. So great has been the popularity of our shares from the beginning, and they were taken up so readily, that a great number of applicants who did not apply in time were doomed to be disappointed, and even now there is a constant enquiry for our stock, which leads me to hope that the prospectus issued by the Kurrachee Ice Company will meet with ready response, and that those shares will be taken up as eagerly as those of the local company were. There are on the Kurrachee Company's directorate men whose names are a sufficient guarantee of the success of the undertaking. For reasons with which you are well understand, I am unable to go into details touching the opposition which we have to compete with, but I may assure you that your directors are quite alive to your interests and are doing their best; and so are your secretaries, Messrs. C. H. B. Forbes and Co. (Applause.)

It was proposed by Mr. Martin Wood, seconded by Dr. Cowasjee Hormusjee, and carried, that the directors' report for the half year ended 31st December 1879 be taken as read, and the same is hereby adopted and confirmed.

It was proposed by Mr. J. R. Duxbury, seconded by Mr. C. Tyabjee, and carried, that the ordinary general meeting shall be held on Wednesday, the 31st inst., at 12 o'clock noon at the registered office of the company, and that subsequent ordinary general meetings shall be held once at least in every year and oftener whenever the directors shall pass a resolution to that effect, at such time and place in Bombay as the directors shall from time to time determine.

The proceedings terminated with a vote of thanks to the chairman for his able conduct in the chair.

ADDRESSES TO SIR RICHARD TEMPLE.

ON Saturday morning at eleven o'clock Sir Richard Temple received at Government House, Malabar Point, several members of the committee who were at a public meeting of the inhabitants held on the previous day, deputed to present to H. E. an address adopted by the meeting and which has already appeared in our columns.

The address was read by Sir Jamsetjee Jeejeebhoy who made the following prefatory remarks:—May it please your Excellency,—In the absence of the Honourable the Chief Justice Sir M. R. Westropp, Knight, chairman of the public meeting held in the Town Hall yesterday afternoon in honour of your Excellency, I feel much gratification in being the spokesman of this deputation. Sympathising as I heartily do with every word of the address which I am now about to read, and the great respect in which I ever held your Excellency, give me a peculiar pleasure in being the medium for conveying the sentiments of those who have subscribed this address. Before I proceed to read it, allow me to express to your Excellency on behalf of myself personally, my wishes for your future welfare and prosperity. (Applause.)

The following signatures were appended to the address:—M. R. Westropp, Jamsetjee Jeejeebhoy, F. L. Latham, F. Mathew, Framjee Nusserwanjee, Pandey, Pestonjee, Morarjee Gocouldass, Byramjee Jeejeebhoy, Dorsabhoy Framjee, W. G. Hunter, Homejee Cursetjee Dadysett, Cursetjee Byramjee Nusserwanjee Serval, M. Maitland, Cuncoo Sulleman, K. R. Cama, Frank H. Souter, K.C.S.I., Jehanghier Cowasjee, Jehanghier Readymoney, and Nansbhai Haridas.

His Excellency in reply to the address said—Gentlemen, I am indeed highly honoured by the receipt of this address and still more by the kind intention which you express of commemorating permanently my humble services in this Presidency. But, gentlemen, it unfortunately is very short, and as my official hoursare now approaching to their last minute, I may, I think, venture to address my present observations to my native friends, especially as my European friends on my right have most kindly given me already an opportunity of bidding me farewell words to them, therefore I am sure they will excuse me if I do not now attempt to repeat myself but address my present farewell to my native friends and fellow subjects on my left. Well, then, my friends, I shall say but little of the old chapper grass and leaves which have recently been cleared off his master's house; he set fire to it, raising such a blaze as alarmed the whole station, causing the fire-bells to be rung, and the fire engine as well as the whole bazaar and a number of ladies and gentlemen to turn out. So great was the blaze that the authorities deemed it advisable to place a watch over the fire all night, after freely using the fire engine to put out the flames.

BENGAL.

TWENTY-FOUR policemen from the Meerut division and a guard of twelve Goorkhas keep watch over Amir Yakub Khan at Mussurie.

It is with inexpressible regret we announce for the information of his numerous friends, that Mr. J. C. Geddes, B. C. S., Judge of Mozufferpore, died at that station of cholera on Monday last. He may without exaggeration be described as a gem of the Civil Service. He commended the highest respect of all classes of natives to whom he was a sincere and consistent friend.—*Mirror.*

NEW EXAMINATION FOR EDUCATIONAL OFFICERS.—We (*Indian Daily News*) hear that a proposal is now under consideration, as to the application to the graded European officers of the Bengal Educational Service of the rules recently published by the Government of India, for the examination of Junior Civilians in the Oriental languages. If this proposal is sanctioned by the Government, it is believed that option will be given to those officers who have already passed the compulsory examination in a vernacular, of presenting themselves for examination for high proficiency, either under the old rules, or under those which it is now proposed to apply to them.

AMERICAN ADVERTISING IN CALCUTTA.—Having copied from the *Englishman* a paragraph on the subject, we also take from the same source the following apology :—" With regard to the paragraph which appeared in our local column yesterday, we learn that it was a mistake to state that the originator of this novel plan of advertising had vanished without fulfilling his contracts. The understanding was that the boards were to be exhibited at Spence's, the Great Eastern, and the Adelphi hotels only, and a visit to these places will show that the contract has been carried out, and the advertisers are perfectly satisfied with the way in which the work has been done. There was no arrangement for the boards to be shown ' in all the conspicuous places in our city.' We apologize for the mistake."

MADRAS.

DEATH OF A FAMOUS MOULVI.—I am sorry to record the death of Moulvi Syed Goolam Rasool Sahib, the well known Moulvi of Trichinopoly, from palcy. This venerable gentleman had a great many scholars who are now scattered about Southern India. Many of your Mahomedan readers will recollect this Moulvi. He composed several Arabic and Persian books which are greatly appreciated by the Mahomedan community. In his last days he published a book against Wahabees, who hate Mahomed the prophet and his four principal disciples. His funeral was largely attended, and he was buried with great pomp and solumnity.—*South Indian Post.*

RUMPA-LAND.—Jampah Pandiah, a Rumpa rebel, who was captured, but made his escape some time ago through the carelessness of the police guard, has come forward and offered his assistance to capture Taman Dora, on the understanding that Government grant him a free pardon. We learn that matters in the Vizagapatam District in the vicinity of Jeypore have assumed a rather unsatisfactory aspect. A band of 600 men has caused a disturbance at Madgole, about thirty-four miles from Vizagapatam. Mr. Closstoun, the Assistant Magistrate, has proceeded to the scene with a detachment of fifty sepoys of the 29th N. I., under a Native officer. At Paderu, two constables were taken prisoners.—*Mail.*

REVISED TELEGRAPH RULES.

We have received from the office of the Director General of Telegraphs, copies of the Indian Telegraph Guide, containing the revised rates and rules for the transmission of foreign and inland messages. As some important alterations have been made in the rules, it may be as well to point out what some of these are. With regard to the Foreign Rules, the changes introduced in accordance with the decision of the London International Telegraph Convention are—

Proper names in any language, and words not belonging to the eight recognized languages, are inadmissible in Code Messages.

Abolition of the compulsory collation charge for cipher and alteration of the divisor in groups of figures from 5 to 3.

The principal changes in the inland rules and rates are—

Abolition of the extra rate between India and British Burma.

Abolition of the extra charge for messages sent at night and on Sundays and certain holidays.

Extension of the maximum length of a message from 200 to 500 words.

Abolition of the double charge for cipher and alteration of the division in groups of figures from 5 to 3.

Abolition of the charge for non-delivery report of reply paid messages.

Second and third class offices open on Sunday morning from 7 to 9 a. m. instead of 7 to 8 a. m. Letter cipher inadmissible.

ALLAN'S ANTI-FAT.

ALLAN'S ANTI-FAT (Trade Mark "Anti-Fat," registered) is the celebrated American remedy for corpulency. It is purely vegetable, being a compound concentrated fluid extract of sea lichens, and is perfectly harmless. No particular change of diet required. Will reduce a fat person from 2lb. to 5lb. a week. It acts upon the food in the stomach preventing its conversion into fat. "Corpulency is not only a disease of itself, but the harbinger of others," wrote Hippocrates 2000 years ago, and what was true then is not less so to-day. The consequences of obesity are often more serious than is generally supposed. The thick accumulations of fat in the tissues mechanically oppress adjacent organs, thereby producing dyspnœa (shortness of breath) and disturbances in the circulation, characterised by palpitation of the heart, faintine, determination of blood to the brain, derangements of the stomach, liver, kindneys, uterus, &c. In consequence of the congestion of the stomach, the patient becomes dyspeptic and is tormented with flatulency, acidity of the stomach, and eructations. The impediments to a free circulation of the blood, and the increased pressure of the masses of fat throughout the system on the blood-vessels, produce a determination of blood to the brain, whence arise somnolency, torpor of the mental and physical functions, and not infrequently apoplexy. Obesity is undoubtedly a not infrequent cause of fatty degeneration of the heart and liver. Speaking of the heart, a late author says :—" Some of the instances of sudden death of fat people may be reasonably ascribed to a rupture of the organ in this weakened state."

ALLAN'S ANTI-FAT, is endorsed by those eminent in the medical profession.

THOMAS FAIRBANK, M.D., of Windsor, Surgeon to her Majesty the Queen, referring to ANTI-FAT in the "British Medical Journal," of June 7, 1879, says :—" I gave some of the extract (Fucus Vesiculosus) to a very corpulent lady, who in the 4 months lost the stones in weight without any change of diet. Since then I have frequently given it for reducing weight depending on the accumulation of adipose tissue, and have never found it fail. I may state that a patient who has been lately taking it as an anti-fat, and who always suffered very much from rheumatic pains about the body, has been entirely free from such troubles while she has been taking the extract, a fact while she quite independently noted."

ALLAN'S ANTI-FAT Reduces a Lady Four Pounds per Week.

"Manchester Square, London, Sept. 30, 1879.

"The Botanic Medicine Co., Great Russell-street-buildings, London, W.C.

"Gentlemen,—My mother has used your ANTI-FAT for over three months and has found it to reduce her on the average of four pounds per week. She has commended it to several friends. —Yours truly,

"W. C. UPTON."

ALLAN'S ANTI-FAT. is endorsed by Messrs. Johnson and Oldham, Chemists, of Dublin, who write the Botanic Medicine Company, under date of Sept. 9, 1879 :—" We sell a good deal of your ANTI FAT. and hear favourable accounts on every side, one gentleman, a magistrate in the North of Ireland, having told us that it reduced him fourteen pounds with in a month.

ALLAN'S ANTI-FAT reduces 9lbs. in four Weeks.

Edward Parrett, Esq., Chemist of Market-square, Winslow, writes the Botanic Medicine Company, under date of June 12 th, 1879 :—

"One lady to whom I have sold Allan's Anti-Fat has decreased 9lbs. in four Weeks."

Thomas Newbould, Esq., Chemist, of Bradford, writes the Botanic Medicine Company, under date of June 11, 1879 :—

"The gentleman for whom I obtained four bottles of Allan's Anti-Fat has derived great benefit from the same, and has recommended it to a friend. Please send me one dozen at once."

C. J. Arblaster, Esq., Chemist, of Birmingham, writes, under date of June 4, 1879 :—

"Have just received a capital account of the effects of Anti-Fat in reducing corpulency."

ALLAN'S ANTI-FAT gives satisfaction.

T. L. Reeve, Esq., of Birmingham, writes the Botanic Medicine Company, under date of July 1, 1879 :—

"A gentleman having used one dozen bottles of ALLAN'S ANTI-FAT, reports a satisfactory reduction."

J. A. Steward, Esq., of Worcester, writes to the Botanic Medicine Company, under date of June 18, 1 79 :—

"Three bottles of ANTI-FAT have produced a wonderful effect."

Herr F. Arnott, of the Elbe, Prussia, writes the Botanic Medicine Company, under date of July 15, 1879 :—

"I have much pleasure to inform you that by taking six bottles of your ALLAN'S ANTI-FAT, I am ten pounds lighter.

ALLAN'S ANTI-FAT Reduces 5lbs. a Week.

22, Redcliffe-street, South Kensington, S. W., June 2d, 1879.

"To the Proprietors of Allan's Anti-Fat.

"Gentlemen,—I have tried your Wonderful medicine Anti-Fat both in America and the country. Through its use I can this town at present losing on an average five pounds per week—Yours respectfully.

HARRY BRAHAM."

BEST QUALITY TRIPLE ELECTRO-PLATE.
MANUFACTURED TO THE SPECIAL ORDER OF
C. MARCKS AND COMPANY,
BOMBAY, 4, Hummum Street. POONA, 1, East Street.

WE long hesitated before undertaking this important branch of business, as we are aware of the immense amount of inferior articles manufactured and sold as the best quality (Electro-plate having so many qualities) by unscrupulous traders and eventually giving no satisfaction to purchasers.

After mature deliberation we have had a large quantity made expressly for us by a leading firm, and as our goods are triple-plated (i. e., have undergone the silvering process THREE TIMES), thereby ensuring a heavy coating of PURE SILVER on superior hard white metal), we can guarantee them to stand ordinary usage for twenty years.

We specially invite the attention of Presidents of Clubs, Hotels, &c., &c., to our stock of goods. Amongst others we recommend the following :—

Tea and Coffee sets of 4 pieces	From	Rs.	90 to 181.
